#### **Vetted Tutor**

## Personally Interviewed

Our tutors go through a rigorous selection process, having been interviewed to assess their teaching skills and subject knowledge. They have extensive tutoring experience with a track record of success, helping students achieve their academic goals.

#### **Tutoring Experience**

Over the last 17 years, I have taught Geography to students from various international curricula, including IB, A-Level, and IGCSE. My focus has been on helping students excel in their exams and Internal Assessments, offering expert guidance on both content and structure. Many of my students have achieved high grades and gained admission to prestigious universities worldwide.

I have also worked closely with students on their research projects, helping them navigate complex geographical topics. My experience includes providing personalised support for one-on-one sessions, ensuring students build a deep understanding of the subject. Whether it's preparing for IB Geography exams or working on IA projects, my tutoring is tailored to meet the individual needs of each student.

In addition to my work in IB Geography, I have supported students with A-Level and IGCSE Geography, helping them prepare for exams and develop strong analytical skills. My lessons combine a comprehensive review of the curriculum with targeted exam practice to ensure that students are fully prepared for their assessments.
